

EXHIBIT C

In the Matter of James Hatcher, Cause No. 0566  
Page 2

Following the review, the complaint review committee will submit its written determination to the Commission, and furnish copies to you and the Complainant. The Commission will consider the committee's determination and proposed disciplinary action, if any. If you do not agree with the committee's determination or proposed disciplinary action, you will have an opportunity for a hearing before the Commission at that meeting. After that meeting, you will receive written notice by certified mail of the Commission's final order on this complaint. You will be notified of the location, date, and time of the Commission meeting to be announced at a later date. All notices will be sent to your last known address in the Commission's records.

Please be advised that all meeting dates are subject to change.

If you accept the committee's determination and recommendation, the matter will come before the Commission as a proposed agreed order. If you do not respond, the Commission may adopt the committee's determination and impose the recommended disciplinary action by default.

The Rules of the Commission set out the complaint process. You may access the rules, as well as other reference materials located on our website at [www.txcourts.gov/jbcc](http://www.txcourts.gov/jbcc) under the *JBCC Statutes, Rules and Policies* section. If you do not have access to the internet, you may request reference materials in writing and copies will be mailed to you.

The agendas for the complaint review committee and Commission meetings will be available for public viewing *the week prior* to each meeting on the Commission's website at [www.txcourts.gov/jbcc](http://www.txcourts.gov/jbcc).

If you have any questions in this regard, please contact the Commission office at 512-475-4368 or e-mail: [compliance@txcourts.gov](mailto:compliance@txcourts.gov).

Sincerely,

Melinda Saucedo  
Compliance Manager  
Judicial Branch Certification Commission  
Office of Court Administration
